# Grumium

**Grumium** helps companies drive profits, reduce costs, improve business efficiency & reduce management risks through its vertical domain experience technology expertise and innovative approaches in service delivery. Established in 1996, Grumium Labs (Grumium) formerly known as Fusion Software Technologies is a leading provider of IT consulting and Implementation services globally to The Financial Services and Healthcare Industries.

## Challenge

The main challenge which our team encountered while making this website was the kind of professional look the entire concept required.

## Solution

### Web design and Flash work:

The lay-out of the website is very simple and professional in outlook. An appealingly simple look and an efficient placement of the content form the backbone of web-design. The idea of building the website was to initiate the presence of Grumium providing it a wider platform in the international arena.

## Results

- + Increased clientele
- + More profits
- + Intelligent solution
